

Homework lessons 2nd - 6th primary classes

Notice for parents

General

The purpose of the homework period is to provide children, attending grades 2 to 6, with a regular time and place to do their homework. Homework periods are taking place twice a week for mixed-age groups from different grades. The participation in this offer is optional. Parents can enrol their child for a whole year. Once enrolled it is a binding obligation and subject to an annually payable fee.

Enrolment and formalities

Parents enrol their child with the online registration form. Enrolment is binding for one school year. The enrolment is a binding obligation for one year. In the first week of summer holidays, the invoices are sent out, which also serve as confirmation of participation. For cancellations after the invoices have been sent no financial reimbursement will be made. The cancellation must be sent in writing to stadtschulen@stadtzug.ch.

Suspensions for single homework lessons must be directed in advanced and in writing to the child's class teacher. In this case there is also no financial refund.

Supervision

During the homework periods a supervisor will be present. However, the supervisor may not always be the same person. He or she is responsible for an orderly learning environment and will answer questions the children may have. The supervisor does not exercise extra tuition as children are expected to do their homework independently. They supervise the attendance of the children and contact the parents in case of an absence without valid excuse.

Time and place

Homework lessons take place on two weekdays during the school week (exception: school-free days). Dates and times are individual per school location. On our homepage you will find an overview of the homework lessons in each location.

Start: In the 2nd week of the new school year
End: During the last week of the school year

If there are not enough enrolments from one school location, they may be combined with other students at a school location nearby.

Costs

Flat-rate: CHF 250.– / year

There will be a reduction for siblings of 25% for the 2nd child and 50% for the 3rd and all further siblings. The invoice will be issued in the first week of the summer holidays. For enrolments during the current year of school, starting at the beginning of the 2nd term, will be charged with CHF 125.–.

Notes

Homework periods are not to be considered as extra tuition. The supervisor does not exercise a tutoring function. If you are considering the possibility of extra tuition for your child, please consult your child's class teacher.

Participants can be excluded from homework periods, if they repeatedly fail to comply with the supervisor's instructions. Parents will be notified in writing in the event of exclusion.
